He added that after jumping well he had some difficulty in settling that gelding at the back of the field and that passing the 1100 metres he found himself racing in a one off position behind **Kings Empire**. He added that he did not mind being in that position as in his opinion the track was quite chopped up on the inside. He also said that from leaving the 900 metres **Middle Path** commenced to race fiercely and was awkwardly placed close to the heels of **Mysterious Omen** and being of the opinion that it was too early to make his move, he decided to restrain the latter and bring it back to the one off position behind **Mysterious Omen**. He further stated that from the 600 metres he allowed his mount to improve around horses and, when asked for an effort leaving the 250 metres, his mount hung in badly, proving difficult to assist. Perdrau explained that at its last two starts this gelding, when being drawn wide raced wide in the early stages and, when asked for an effort, failed to quicken and was disappointing. He added that since then **Captain Moss** had improved at track work and for today's race, taking into consideration that **Red Indy**, the horse to beat, had just beaten **New Golden Age** at its last start and in his opinion **Captain Moss** at its best is a much better horse than **New Golden Age**, he was quietly confident of a good showing provided that it jumped well and was able to race in a good position.
